Tenbrooke Candleholders, Set of 2

#9633

Create a tranquil setting while delivering a luxe touch to a room with these delicate candleholders. Each features a conical-shaped pale brass top that funnels into a black marble base fitted with a pale brass foot. The glow of a taper candle's flame creates ambience and simultaneously accentuates the fluidity of the white veining on the black marble base. The varied heights of the candleholders work to add depth and dimension to a console top or an etagere shelf. Marble may vary.
