

ARTERIORS

Ulani Small Centerpiece

#5035

Natural teak root has been unearthed to create this bold and unique centerpiece. The irregular shape and hand-carved ribbed surface delivers a textural quality to the rich ebony finish. Small holes pierce the organic formation due to natural erosion, but this only enhances its eye-catching aesthetic. Doubles as a sculpture or centerpiece. Pair with the larger version for an even more dramatic effect. Size and shape will vary.
