Alexander

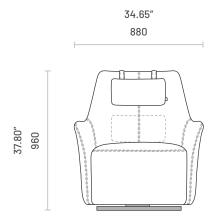

ARMCHAIR & OTTOMAN

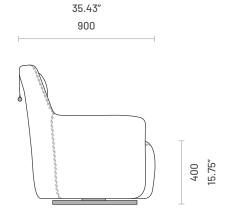

Alexander is a highly innovative solution linked to a functional and quite traditional shape. A powerful and embracing structure where a high back smoothly connects to the seat cushion and ends on a swivel base. The arms and backrest on this piece slightly arch outwards, inviting everyone to sit. The highlight goes to the additional support padding in the back, held up by a metallic opulent counterweight, that can be adjusted in height and produced in a different finish. This timeless armchair coordinates perfectly its materials in a one-of-a-kind piece, especially when presented in a cross-stitched seam.
