# Dedalo

Ispirata all'essenzialità geometrica del cilindro, la madia Dedalo si caratterizza per le due spalle curve strutturali collegate da una schiena dello stesso, delicato, spessore. Come in un abbraccio, gli elementi verticali racchiudono i piani orizzontali, creando nella parte superiore un effetto vassoio contenitivo e offrendo frontalmente una comoda presa integrata. Il vano interno, privo di divisioni verticali, può essere personalizzato con ripiani fissi o differenti moduli - da quelli a ribalta ai vassoi contenitori, dai cassetti al modulo bar - per organizzare gli spazi con la massima libertà. Opzionale, l'illuminazione interna che esalta i profili e le geometrie della struttura. La madia, autoportante, è disponibile con apertura a battente e può essere personalizzata nelle finiture.

<sup>EN</sup> Inspired by the simple sleek geometric form of the cylinder, the Dedalo sideboard has two structured curved ends connected by a back section of the same slim panel thickness. The vertical sections wrap their embrace around horizontal elements, creating a recessed tray on top and a smart integrated handle at the front. The inside compartment, free of vertical dividers, can be customized with fixed shelves or different modules - including drop-down front modules, shallow trays, drawers and a bar module, for total freedom over space organization. Optional interior lighting shows off the contours and geometry of the sideboard. The self-standing sideboard is available with hinged doors and custom finishes.

**Structure**

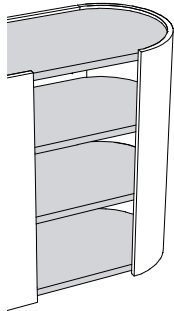

The doors, sides and back are made of 2.2 cm Th engineered wood covered with:

- synthetic veneer, Matt Lacquered on the inside and on the outside
- synthetic veneer, Glossy Lacquered on the inside and High-Gloss Lacquered on the outside
- stained Wood veneer (Borgogna, Canaletto, Frassino Nero, Frassino Antracite, Frassino Castano, Frassino Miele, Frassino Lino) both inside and outside

**The structure is finished at the back, for use in the middle of the room.**

There are no internal partitions to divide the sideboard into compartments, there is only one accessible compartment.

Upon request and at a surcharge, the sideboard can be reduced in width. For further information on custom limitations, please contact our sales department.

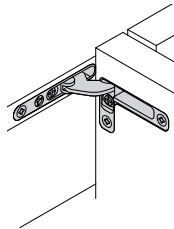

**Horizontal tops**

The base, top and shelves are made of 3 cm Th engineered wood panels covered with:

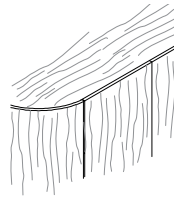

- synthetic veneer, Matt or High-Gloss Lacquered
- stained Wood veneer (Borgogna, Canaletto, Frassino Nero, Frassino Antracite, Frassino Castano, Frassino Miele, Frassino Lino)
- synthetic veneer in Materico finish (Bianco, Cenere, Seta, Ecrù, Vinile, Larice Tortora, Noce Dorato)

On request, shelves can be moved by +/- 6.4 cm with respect to the position indicated in the price list.

**Hinged doors**

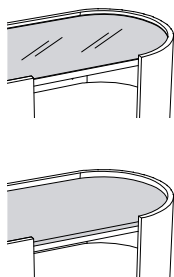

- Hinged door opening with hinges recessed in the structure
- A height, width and depth-adjustable hinge support recessed in the door
- Soft closing

**Grain direction**

On Wood veneered (Borgogna, Canaletto, Frassino Nero, Frassino Antracite, Frassino Castano, Frassino Miele, Frassino Lino) fronts, sides and back panels the grain direction is always vertical.

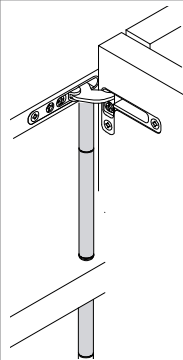

In all other instances, the grain always follows the longer side.

**Optional top**

Recessed in the structure and made of:

- 0.4 cm Matt or Glossy Lacquered Glass (standard: Bianco, Piombo, Roccia and Seta), Metallizzato Glass (Argento, Bronzo, Piombo) or Matt or Glossy Marble Glass (Amani, Calacatta, Sahara) glued directly onto a support panel
- 2 cm Th Matt or Glossy Marble (Emperador, Fior di Pesco, Gioia di Carrara, Grafite) or 2 cm Th Terrazzo (Arlecchino, Balanzone, Farinella, Rugantino)
- Cannot be reduced

**Rod**

- Available for sideboards that are 230 cm wide or more
- It allows for the use of the full width of the compartment

**Rod finishes**

Matt Lacquered to match horizontal tops

**Internal modules**

One of the following accessories can be added inside the sideboard, centred in the largest compartment with door:

- internal drawer
- People unit with drawer, flap or flap with bar kit

**When ordering, please specify the position of the additional unit, as it is not possible to add it later on.**

**Assembly**

The assembly must be carried out by qualified installers.

All responsibility lies with the customer, who should consider the structural characteristics of the wall and/or ceiling and use the most suitable anchoring systems and hardware.

It is therefore possible that in some situations the hardware supplied might not be suitable.

**Base**

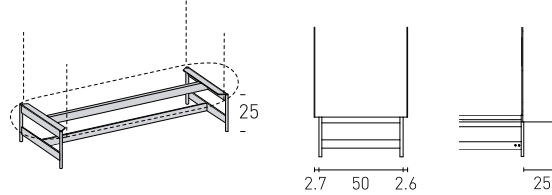

The metal legs of the H 25 base are available in:

- Matt Lacquered
- Matt or Glossy Metal Finishes (Bronzo, Champagne, Cromo, Titanio) or Matt or Glossy Ottone Anticato

The upper horizontal metal crossbar is always in Nero Matt Lacquered. The lower one is always in a colour matching the legs.

Alternatively the sideboard can be equipped with concealed feet which keep the unit raised 2 cm off the floor and allow for the height to be adjusted from the outside.

Upon request, the base can be reduced in width. For further information on custom reductions please contact our sales department.

**Wiring**

LED lighting can be added inside the sideboard under the top and under all shelves in the unit.

The LED light strips, provide 3000° K light (warm light) as standard. A 4000° K (neutral light) version is available on request and at the same price.

There are external wires on the back of the sideboards with dedicated plastic covers. The base unit has a sensor switch on the light when the door is opened.

**When placing your order, please specify whether you need a lighting kit as it cannot be added later on.** Grommets (Type: A, B, C) can also be added to backs, bottoms, shelves and tops at a surcharge (not on Glass or Marble tops).

**When placing your order,** the following options can be requested for dimming and switching the lights on and off:

- A system controlled by a traditional remote control, that supports up to 4 power supplies
- A Bluetooth system controlled with a device application
- A system with Bluetooth control to be inserted directly into the household power socket, which supports up to 4 power supplies. The installation must only be carried out by qualified installers. Further information regarding installation and compatible models must be requested to our sales department.
